mother of the Senator's four children. Hopes are freely expressed that the court will grant all Mrs. Fair asks, both in regard to expenses of the suit, giving her control of the children and awarding her control of the children and awarding her the \$3,000,000 cash and \$1,500,000 worth of property. Many persons are heard saying that if Mrs. Fair obtains these amounts she will be doubly fortunate; first in securing ample provision for herself and children, and secondly in being freed from one who, after so miany years of married life, proves himself a faithless husband. Mrs. Fair has not had the court will grant all Mrs. Fair asks, both after midnight last night, amid great husband. Mrs. Fair has not had the social advantages of many other women cided at present. occupying a similar position in society, but, as is generally known and stated, she, in the days of poverty and wealth, proved herself a true, consistent wife and mother. The Senator, on being interviewed, said he proposed defending and trying the case. He said: "I deny the allegations in the complaint. It is a lot of blank lies, the same as have been published in an eastern paper sometime ago. I wish I knew the fellow who wrote it. I refer to the story that my eldest boy tried to shoot me. There is no truth whatever in such a statement, and now I have nothing more to say," Mrs. Fair, on in such a statement, and now I have nothing more to say." Mrs. Fair, on being seen, expressed surprise to learn that her husband denied the charges, and immediately asked; "Did he say anything about me?" An Eighteen-Cent Railroad Case March, 1873, Morgan A. Lewis, a pasenger on one of the trains of the Chiago, Burlington and Quincy Railroad Company, tendered Neil Ruggles, a conductor for that company, eighteen cents to Neponset, a distance of six miles. This was the maximum rate, at three cents per mile, prescribed by the statute of Illinois then in force. The conductor demanded twenty cents, which was the fare fixed by the railroad company. Lewis refused to pay more than eighteen cants, and the conductor attempted to eject him from the car. For this action the conductor was prosecuted before a Justice of the Peace upon the charge of assault and battery and fined \$10 and costs. The case was carried up through the courts by successive appeals. The Supreme Court holds, first, that grants of immunity from legitimate government control are never to be resumed. On the contrary, the presumptions are all the other way, and e resumed. On the contrary, the pre-imptions are all the other way, and nless exemption is clearly established by the legislative enactment, all sub-ects are within its general jurisdiction, s the public interests may seem to re-uire. WASHINGTON, May 8 .- The Supreme No. 1230, ex parte Tom Tong, on a petition for a writ of habeas corpus. This case of Tong comes here under a certificate of division of opinion between the Judges of the United States Circuit Court for the District of California. Tom Tong, the petitioner, a subject of the Emperor of China, was arrested and imprisoned in San Francisco on the 13th day of January last, for ignoring and refusing to obey an ordinance of the Board of Supervisors, to regulate the licensing and maintaining of public laundries in that city. He petitions the United States Circuit Court for a writ of habeas corpus on the ground that he was unlawfully arrested, and was dehabeas corpus on the ground that he was unlawfully arrested, and was dewas unawfully arrested, and was de-prived of his liberty in contravention of the Constitution of the United States and of the Burlingame Treaty. The writ is denied, the opinion being by Chief Justice Waite.

There are all of the essential elements of unlimited prosperity in the two countries, and the United States and Mexico, united in a friendly alliance, could be so strong that, in case a combined war should be made upon them by all other countries, they would be able to shut themselves in their shell and sustain themselves longer than the people attacking them could do without their products."

MAGNETISM—The new source of health!

Dr. Robbins discards the use of surgery, drugs, minerals and all other medicines in his treatment, and allowed the control of the city of the control of the city of the control of the city and all other medicines in his treatment, and rolies solely on the power of magnetism. An experience of several years in the Australian colonies, San Francisco, Salt Lake City and Denver, in which places he has treated successfully thousands of persons, enables him to assert, with confidence that he can cure diseases that have defied the application of medical science. Magnetism is the life principle within us. The air we breathe is charged with it. It is the vital force emanating from all persons and that which connects the soul with the body. In support of this theory he cures acute pains instantly, local pains in a few days, and builds up the most shattered constitution in a short time. Dr. Robbins, who has a worldwide reputation for his extraordinary cures of all difficult and complicated diseases, possesses a power to relieve and cure all kinds of disease.
